Re: *Approval of the Amendment to the Interconnection Agreement Negotiated by BellSouth Telecommunications, Inc. and Network Telephone Corporation Pursuant to Sections 251 and 252 of the Telecommunications Act of 1996.*
Docket No. 03-00457

Dear Chairman Tate:

Pursuant to Section 252(e) of the Telecommunications Act of 1996, Network Telephone Corporation and BellSouth Telecommunications, Inc. are hereby submitting to the Tennessee Regulatory Authority the original and fourteen copies of the attached Petition for Approval of the Amendment to the Interconnection Agreement dated June 20, 2003. The Amendment adds LA DSL language and rates and modifies Attachment 2 to add Operator Call Process and DACC rates.

Thank you for your attention to this matter.

Sincerely yours,

Guy M. Hicks

cc: Margaret Ring, Director, Regulatory Affairs, Network Telephone Corporation

BEFORE THE TENNESSEE REGULATORY AUTHORITY
Nashville, Tennessee

In re: *Approval of the Amendment to the Interconnection Agreement Negotiated by BellSouth Telecommunications, Inc. and Network Telephone Corporation Pursuant to Sections 251 and 252 of the Telecommunications Act of 1996*

Docket No. 03-00451

**PETITION FOR APPROVAL OF THE
AMENDMENT TO THE INTERCONNECTION AGREEMENT
NEGOTIATED BETWEEN BELLSOUTH TELECOMMUNICATIONS, INC.
AND NETWORK TELEPHONE CORPORATION
PURSUANT TO THE TELECOMMUNICATIONS ACT OF 1996**

COME NOW, Network Telephone Corporation ("Network Telephone") and BellSouth Telecommunications, Inc., ("BellSouth"), and file this request for approval of the Amendment to the Interconnection Agreement dated June 20, 2003 (the "Amendment") negotiated between the two companies pursuant to Sections 251 and 252 of the Telecommunications Act of 1996, (the "Act"). In support of their request, Network Telephone and BellSouth state the following:

1. Network Telephone and BellSouth have successfully negotiated an agreement for interconnection of their networks, the unbundling of specific network elements offered by BellSouth and the resale of BellSouth's telecommunications services to Network Telephone. The Interconnection Agreement was filed with the Tennessee Regulatory Authority ("TRA") on June 20, 2003.
2. The parties have recently negotiated an Amendment to the Agreement which adds LA DSL language and rates and modifies Attachment 2 to add Operator Call Process and DACC rates. A copy of the Amendment is attached hereto and incorporated herein by reference.

3. Pursuant to Section 252(e) of the Telecommunications Act of 1996, Network Telephone and BellSouth are submitting their Amendment to the TRA for its consideration and approval. The Amendment provides that either or both of the parties is authorized to submit this Amendment to the TRA for approval.

4. In accordance with Section 252(e) of the Act, the TRA is charged with approving or rejecting the negotiated Amendment between BellSouth and Network Telephone 90 days of its submission. The Act provides that the TRA may only reject such an agreement if it finds that the agreement or any portion of the agreement discriminates against a telecommunications carrier not a party to the agreement or the implementation of the agreement or any portion of the agreement is not consistent with the public interest, convenience and necessity.

5. Network Telephone and BellSouth aver that the Amendment is consistent with the standards for approval.

6. Pursuant to Section 252(i) of the Act, BellSouth shall make the Agreement available upon the same terms and conditions contained therein.

Network Telephone and BellSouth respectfully request that the TRA approve the Amendment negotiated between the parties.

This 23¹ day of July, 2003.

Respectfully submitted,

BELLSOUTH TELECOMMUNICATIONS, INC.

By:

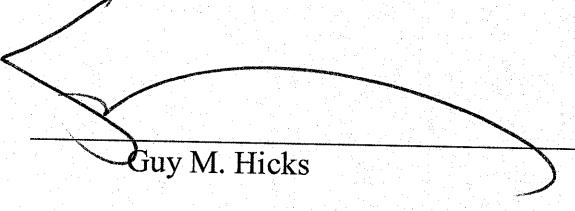

Guy M. Hicks

**AMENDMENT
TO THE
AGREEMENT BETWEEN
NETWORK TELEPHONE CORPORATION
AND
BELLSOUTH TELECOMMUNICATIONS, INC.
DATED JUNE 20, 2003**

Pursuant to this Amendment, (the "Amendment"), Network Telephone Corporation ("Network Telephone"), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated June 20, 2003 ("Agreement").

WHEREAS, BellSouth and Network Telephone entered into the Agreement on June 20, 2003, and;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties desire to add provisions to meet the requirements of the Louisiana Public Service Commission Order in Docket #R-26173.
2. The Parties agree to add a new Section 2.10 to Attachment 2 of the Agreement, titled Provisioning of DSL over UNE-P and UNE Loops as set forth below:

2.10 Provisioning of DSL over UNE-P and UNE Loops in Louisiana

- 2.10.1 In Louisiana, in order to comply with the Louisiana Public Service Commission's Order in Docket No. R-26713, and notwithstanding any contrary provisions in this Agreement, BellSouth Tariff F.C.C. Number 1, or any other agreements or tariffs of BellSouth, BellSouth shall continue to provide BellSouth ® FastAccess® Internet service ("FastAccess"), or wholesale Low Speed DSL ("wholesale ADSL") to the end-user who obtains voice service from Network Telephone over UNE-P and UNE loops.
- 2.10.2 If Network Telephone acquires the retail voice service on a UNE-P basis for an end-user served by BellSouth where the end-user subscribes to FastAccess, or wholesale ADSL at the time of such acquisition and Network Telephone's voice end-user desires BellSouth to continue to provide FastAccess to the end-user or wholesale ADSL to the end-user's ISP and has granted permission to Network Telephone to request on the end-user's behalf that FastAccess or wholesale ADSL continue to be provided, Network Telephone will follow the Local Ordering Handbook guidelines when ordering the UNE-P service. By allowing the ADL++ to remain on the line, Network Telephone grants BellSouth the right to use the high frequency portion of its loop without charge, for the provision of FastAccess or wholesale ADSL.

2.10.3 If Network Telephone wishes BellSouth to provide FastAccess or wholesale ADSL on the high frequency portion of a loop to a Network Telephone end-user served by UNE-P, and the end-user has granted permission to Network Telephone to request on the end-user's behalf that FastAccess or wholesale ADSL be provided, Network Telephone will include the UNE-P telephone number and ADL++ on the FastAccess or wholesale Low Speed DSL order for the UNE-P account. By including this ADL++ on the FastAccess or wholesale Low Speed DSL order , Network Telephone grants BellSouth the right to use the high frequency portion of its loop without charge, for the provision of FastAccess or wholesale ADSL. This assumes that the existing loop will qualify for FastAccess or wholesale ADSL. If the loop does not qualify for FastAccess or wholesale ADSL, FastAccess or wholesale ADSL will not be available for that end-user.

2.10.4 If Network Telephone acquires the voice and data services on a UNE loop basis for an end-user currently served by BellSouth, where the end-user subscribes to BellSouth FastAccess or has DSL service from an ISP that uses wholesale ADSL, and Network Telephone desires a seamless transition of the BellSouth voice and data services to the voice and data services of the CLEC, then Network Telephone shall order a UNE loop with the Order Coordination (OC) feature. The OC feature allows for a "hot cut" from the end user's existing service to the CLEC's UNE loop in a coordinated manner so that the required interruption of the end user's voice and data services are limited to a 15 minute window. Some UNE loops include the OC feature as a standard function that is included in the non-recurring charge of the loop itself, and other loops offer OC as separate feature with an additional charge. Furthermore, the CLEC may also order the Order Coordination – Time Specific (OC-TS) feature. The OC-TS feature allows the CLEC to specify the time in which the "hot-cut" takes place. OC-TS is a chargeable option on all loop types. In all cases where the CLEC desires a seamless transition for the end-user, the CLEC is responsible for ensuring that its dial tone and data service is available on its specified collocation cross-connect prior to the conversion time.

3. The Parties agree to add new ADL++ USOCs to Exhibit B rates to Attachment 2-UNEs with the ADL++ USOCs as set forth in Exhibit 1 of this Amendment, attached hereto and incorporated herein by this reference.
4. The Parties agree to add Virtual Collocation rates for Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, South Carolina and Tennessee to Exhibit B of Attachment 4 as set forth in Exhibit 2 of this Amendment, attached hereto and incorporated herein by this reference.
5. The Parties agree to add Operator Service, Directory Assistance and Inward Operator Services rates for North Carolina to Exhibit B of Attachment 2, as set forth in Exhibit 3 of this Amendment, attached hereto and incorporated herein by this reference.
6. This Agreement shall be deemed effective June 20, 2003.

7. All of the other provisions of the Agreement, dated June 20, 2003, shall remain in full force and effect.
8. Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Agreement the day and year written below.

BellSouth Telecommunications, Inc.
